WALL-MOUNT 2-PORT OPEN FRAME RACK

Wall-Mount 2-Post Open Frame Rack

Adjustable 2-Post Open Frame Rack to Meet Rack Space Needs Now and Later
SmartRack 8U/12U/22U Expandable Ultra Low-Profile Patch-Depth Wall-Mount 2-Post Open Frame Rack is ideal for installing patch panels and other shallow networking equipment in secure IT areas with limited floor space. Constructed from heavy-duty steel with a durable black powder-coated finish, this has a maximum load capacity of 150 pounds..

Expandable to Fit Future Rackmount Equipment Needs
The expandable design allows you to assemble this in an 8U, 12U or 22U configuration. It saves precious space and allows IT managers easy access for organizing, installing and servicing equipment and cabling. Mounted to the wall or resting on the floor, it offers fast, easy access to network components and cabling.
This is compatible with EIA-standard 19 inches rack equipment that supports post mounting and a maximum mounting depth of 5.75 inches. The vertical mounting rails have threaded 12-24 holes. Equipment mounting screws are included. Wall-mounting holes are spaced 16 inches apart to accommodate standard wall stud placement.
