12U Wall Mount 2-Post Open Frame Rack

12U Wall Mount 2-Post Open Frame Rack

Swinging 2-Post Wall-Mount Open Frame Rack for Secure IT Applications

12U Low-Profile Switch-Depth Wall-Mount Pivoting 2-Post Open Frame Rack is the perfect solution for applications in secure IT environments where floor space is limited where space is limited. With its sturdy wall-mount bracket and heavy-duty steel frame, this has a weight capacity of 150 pounds and provides 12U of rack space—off the floor! Wall-mount brackets with adjustable pivots provide easy access to equipment and cabling. .

Versatile, Space-Saving Design and Optimized for Secure Environment

This features sturdy wall-mount brackets and a heavy-duty steel frame that allows the enclosure to be wall-mounted—an ideal rackmount solution for any venue where floor space is limited. Adjustable pivots enable the frame to swing out from the wall for easy access to equipment and cabling.

This is an ideal solution for secure IT environments and other applications not requiring a lockable enclosure. It conserves valuable floor space, helps IT managers to better organize their equipment array, and simplifies access for equipment installation and servicing.

The adjustable pivots support three different frame depths and enables the frame to be safely locked the in the closed position or in the open (90° left/right) position.

This is designed with a tight swing-out arc to minimize cable slack. These smart design features facilitate quick installation of equipment and provide convenient service access to equipment and cabling. Has a maximum weight capacity of 150 pounds and a maximum mounting depth of 18 inches.
